

To assemble the bed you require

- drill-driver, Philips screwdriver, 8mm hex key, hammer, two adults.
- Head end (1) – 1 pc.
- Foot end (2) – 1 pc.
- Side rail (3) – 2 pcs.
- Leg (4) – 2 pcs.
- Stringer with legs (5) – 3 pcs.
- Maxifix cam (A) – 8 pcs.
- Maxifix coupling (B) – 8 pcs.
- Maxifix bolt (C) – 8 pcs.
- Stabilising pin (D) – 4 pcs.
- "UT" fitting (E) – 6 pcs.
- 4 x 60 screw (long) – 10 pcs.
- 5 x 25 Spax screw (short) – 36 pcs.
- Confirmat 50mm 8 pcs.
- 4mm hex key

Allgemeiner Sicherheitshinweis:

Nicht mehr benötigte Verpackungsmaterialien und Kleinteile von Kindern fernhalten! Schwere Elemente nicht alleine heben!

1. Step

Prepare: legs, head end, 50mm confirmats, 4mm hex key.

With use of the 4mm hex key and 50mm confirmats screw the legs to the bottom of the head end, as per the marked holes. The confirmats have to be screwed all the way, aligned with the wood surface.

2. Step

Prepare: Maxifix couplings and bolts, stabilising pins, head end, foot end and 8mm hex key.

Screw the Maxifix couplings (B) clockwise with the 8mm hex key to the outer holes on the head (1) and foot end (2). **IMPORTANT:** The coupling has to be screwed until it's aligned with the wood surface (no deeper). Then place the stabilising pin (D) in the middle hole on both ends of the head (1) and foot end (2) and hammer until it reaches the bottom. To the previously installed couplings screw the Maxifix bolts.

Allgemeiner Sicherheitshinweis:

Nicht mehr benötigte Verpackungsmaterialien und Kleinteile von Kindern fernhalten! Schwere Elemente nicht alleine heben!

3. Step

Prepare: side rails, Maxifix cams, 5x25 Spax screws (short), "UT" fittings, Philips screwdriver and drill-driver with the PZ bits.

With the use of 5x25 Spax screws and a drill-driver secure the "UT" fittings (E) to the side rails (3) as per the marked holes.

IMPORTANT: Use the 5x25 Spax screws (4 pcs. per one fitting, 3 fittings per one side rail).

Then insert Maxifix cams (A) into the holes drilled in the side rails ends, so that the arrows on the cams are turned in the direction of the short side rail edge.

4. Step

Lay the head end down so that the pins and bolt are facing upwards. Attach the side rails to the head end placing the bolts and the stabilising pin in the holes in such a way, that the "UT" fittings are placed at the bottom, on the inner side of the rails. When the side rails are tightly adjoined with the head end, turn the cams clockwise. In order to make the connection secure, the cam must be turned at least 3/8 of a turn.

Allgemeiner Sicherheitshinweis:

Nicht mehr benötigte Verpackungsmaterialien und Kleinteile von Kindern fernhalten! Schwere Elemente nicht alleine heben!

With the use of 4x60 screws and the drill-driver screw in the screws as per the marked holes. The screws' heads should not enter the wood deeper than 3-5mm. Assemble the side rails with the foot end in the same manner.

5. Step

Prepare: stringers with legs, Spax screws.

Insert the stringers' ends to the "UT" fittings mounted on the bed and secure with the Spax screws. After the stringers are mounted, place the bed on legs.

ACHTUNG:

CAUTION: Ask another person for help as the bed frame is heavy. Grab the bed on the sides and place on the floor, avoiding putting the whole weight on the head end legs, as they may break off. Insert the racks, so that its bars are crosswise to the stringers and the tapes connecting the bars are facing downwards.

We wish you a pleasant sleeping!

D - Allgemein

Achten Sie bitte auf regelmäßige Lüftung der Räume.

Zu trockene Luft fördert das Verziehen der Hölzer.

Feuchtigkeit und Nässe sofort mit einem trockenen Tuch abwischen.

Alle Oberflächen bitte nicht mit scharfen oder spitzen Gegenständen beschädigen.

Oberflächen bitte nicht mit scharfen Putz- oder Reinigungsmitteln behandeln.

Zur Reinigung der Oberflächen verwenden Sie bitte lediglich ein angefeuchtetes Tuch.

Dieses Produkt ist nur für den Einsatz in Privathaushalten konzipiert.

Massivholz

Feine Äste, Verwachsungen und kleine Risse sind naturbedingt und kein Reklamationsgrund.

Farbdifferenzen und verschiedene Maserungsverläufe zeugen von der Echtheit des Holzes und sein kein qualitativer Mangel.

Lackierte Oberflächen

Gegenstände bitte nicht ohne geeigneten Untersetzer auf den Oberflächen abstellen.

Eventuell sichtbare Polier und Schleifspuren sind produktionsbedingt und stellen keinen qualitativen Mangel dar.

Geölte und gewachste Oberflächen

Vermeiden Sie bitte Staunässe auf der Oberfläche und entfernen Sie Getränkereste sofort.

GB - General

Please make sure that your rooms are ventilated regularly.

Very dry or very humid aid will support the warping of wooden products.

Wipe off liquids and moist spots immediately with a soft and dry cloth.

Prevent sharp and pointed objects from direct contact with the surface.

Do not use washing powders or any other substances containing abrasives to clean the surface.

This product is conceived only for private household.

Solid wood

Little knots, connation and little cracks in the wood are typical natural characteristic of wood and not a reason for a claim. Differences in color and grain are also typical for solid wood and not a qualitative defect.

Lacquered surfaces

Please don't put any item without table mat on the surface, it could cause heavy scratches. Maybe visible polish marks are conditions of production and not a reason for a claim.

Oiled an waxed surfaces

Please take care of wetness on the surface and clean it at once.
